

PRACTICAL AI FOR EVERY BUSINESS

Turn customer questions into *business opportunities.*

AI2Gateway gives your business an AI customer support assistant that lives on your website, answers from the information you approve, speaks your customers' languages and guides them to your own order, booking or enquiry forms — while your team stays in control.

THE CHALLENGE

Customers ask questions *at every hour.*

After-hours enquiries

Questions arrive at night, on weekends and across time zones — when no one is free to reply.

The same questions, daily

Menus, prices, hours, specs and documents — staff repeat the same answers again and again.

Visitors who leave

When answers are hard to find, visitors move on — often to a faster competitor.

THE SOLUTION

An AI assistant on your website — *set up with your approved information.*

Your AI2Gateway assistant appears as a chat window on your existing website. It is configured with your business information — menus, price lists, product specifications, course details, policies and FAQs — and uses it to give customers clear, helpful answers at any time.

What your customers get

- ✓ Instant answers, 24/7, in their own language
- ✓ Menus, brochures and documents right in the chat
- ✓ A clear next step: order, booking, quote or enquiry

What your business gets

- ✓ Fewer repetitive questions for your staff
- ✓ Enquiries that arrive with the key details
- ✓ Full control — your team confirms every transaction

HOW A CONVERSATION FLOWS

WHAT YOUR ASSISTANT CAN DO

Practical features. *Real business results.*

AI

Instant, accurate answers

Responds using the information you approve — menus, prices, specs, policies and FAQs.

文

Multilingual conversations

Customers can chat in English, Hindi, Urdu, Arabic, Chinese and many more languages.

PDF

Documents in the chat

Shares menus, brochures, spec sheets, price lists and guides exactly when needed.

↗

Action links

Guides customers to your own order, booking, quote, enquiry or support-ticket forms.

24/7

Always available

Answers day and night, weekends and holidays — across every time zone.

🎯

Industry personality

Each assistant has its own tone and knowledge for your industry and brand.

✓

Your team in control

Staff receive the enquiry details, then confirm and complete every transaction.

🔄

Easy to update

Change menus, prices, documents and answers as your business evolves.

BUILT ON TRUST

What your assistant does not do

- ✗ It does not complete payments or transactions — your team does.
- ✗ It does not replace your staff — it supports them.
- ✗ It does not give professional, legal or medical advice.
- ✗ It does not invent answers — it uses what you approve and hands over when unsure.

WORKS WITH

Your content, your tools

- ✓ Menus, price lists, catalogues & PDFs
- ✓ Your existing website — one small embed
- ✓ Your own order, booking and enquiry forms
- ✓ English, Hindi, Urdu, Arabic, Chinese & more

LIVE DEMONSTRATIONS

HOW IT WORKS

Live in *four simple steps.*

1

Share your information

Menus, price lists, specs, courses, FAQs and brochures.

2

We configure your assistant

Tone, languages, knowledge and action links for your business.

3

You test & approve

Try real customer questions before anything goes live.

4

Go live

One small embed on your website. Customers get answers; your team gets enquiries.

WHAT WE NEED FROM YOU

- ✓ Your key business information and common questions
- ✓ Documents to share: menus, brochures, spec sheets, guides
- ✓ Links to your order, booking, quote or enquiry forms
- ✓ The languages your customers use
- ✓ Who in your team receives and confirms enquiries

FREQUENTLY ASKED

Does it make up answers?

It is set up to answer from your approved information, and guides customers to your team when unsure.

Can it take orders or payments?

It guides customers to your own forms. Your staff confirm and complete every order.

Will it work on my website?

Yes — it is added as a chat window with a small embed on most websites.

Can I update the information?

Yes. Menus, prices and documents can be updated as your business changes.
